Construction documents which are accepted as part of the application for a building permit shall be marked as accepted by the Code Enforcement Officer in writing or by stamp. One set of the accepted construction documents shall be retained by the Code Enforcement Officer, and one set of the accepted construction documents shall be returned to the applicant to be kept at the work site so as to be available for use by the Code Enforcement personnel. However, the return of a set of accepted construction documents to the applicant

shall not be construed as authorization to commence work, nor as an indication that a building permit will be issued. Work shall not be commenced until and unless a building permit is issued.

- F. Issuance of building permits. An application for a building permit shall be examined to ascertain whether the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code. The building permit shall contain such a directive. The permit holder shall immediately notify the Code Enforcement Officer of any change occurring during the course of the work. The building permit shall contain such a directive. If the Code Enforcement Officer determines that such change warrants a new or amended building permit, such change shall not be made until and unless a new or amended building permit reflecting such change is issued.
- I. Time limits. Building permits shall expire 12 months after the date of issuance. A building permit which has become invalid or which has expired pursuant to this subsection may be renewed upon application by the permit holder, payment of the applicable fee, and approval of the application by the Code Enforcement Officer.
- J. Revocation or suspension of building permits. If the Code Enforcement Officer determines that a building permit was issued in error because of incorrect, inaccurate or

incomplete information, or that the work for which a building permit was issued violates the Uniform Code or the Energy Code, the Zoning Code<sup>3</sup> or any other general or local law, ordinance, rule or regulation, the Code Enforcement Officer shall revoke the building permit or suspend the building permit until such time as the permit holder demonstrates that all work then completed is in compliance with all applicable provisions of the Uniform Code and the Energy Code and all work then proposed to be performed shall be in compliance with all applicable provisions of the Uniform Code and the Energy Code.

- K. Fee. The fee specified in or determined in accordance with the provisions set forth in § 26-25, Fees, of this article must be paid at the time of submission of an application for a building permit, for an amended building permit, or for renewal of a building permit.

  - (9) Energy Code compliance; and
  - (10) A final inspection after all work authorized by the building permit has been completed.
- C. Inspection results. After inspection, the work or a portion thereof shall be noted as satisfactory as completed, or the permit holder shall be notified as to where the work fails to comply with the Uniform Code or Energy Code. Work not in compliance with any applicable provision of the Uniform Code or Energy Code shall remain exposed until such work shall have been brought into compliance with all applicable provisions of the Uniform Code and the Energy Code, reinspected, and found satisfactory as completed.
- D. Fee. The fee specified in or determined in accordance with the provisions set forth in § 26-25, Fees, of this article must be paid prior to or at the time of each inspection performed pursuant to this section.

**§ 110-15. Stop-work orders.**

- A. Authority to issue. The Code Enforcement Officer is authorized to issue stop-work orders pursuant to this section. The Code Enforcement Officer shall issue a stop-work order to halt:
- (1) Any work that is determined by the Code Enforcement Officer to be contrary to any applicable provision of the Uniform Code or Energy Code,

The Code Enforcement Officer shall cause the stop-work order, or a copy thereof, to be served on the owner of the affected property (and, if the owner is not the permit holder, on the permit holder) personally or by registered mail or certified mail. Service by registered or certified mail shall be sufficient if addressed to the address set forth in the building permit application. The Code Enforcement Officer shall be permitted, but not required, to cause the stop-work order, or a copy thereof, to be served on any new applicant, owner, builder, architect, tenant, contractor, subcontractor, construction superintendent, or their agents, or any other person taking part or assisting in work affected by the stop-work order, personally or by registered mail or certified mail; provided, however, that failure to serve any person mentioned in this sentence shall not affect the efficacy of the stop-work order.

- D. Effect of stop-work order. Upon the issuance of a stop-work order, the owner of the affected property, the permit holder and any other person performing, taking part in or assisting in the work shall immediately cease all work which is the subject of the stop-work order.
- E. Remedy not exclusive. The issuance of a stop-work order shall not be the exclusive remedy available to address any event described in Subsection A of this section, and the authority to issue a stop-work order shall be in addition to, and not in substitution for or limitation of, the right and authority to pursue any other remedy or impose any other penalty under § 26-24, Enforcement; penalties for offenses, of this article or under any other applicable local law or state law. Any such other remedy or penalty may be pursued at any time, whether prior to, at the time of, or after the issuance of a stop-work order.

- A. Certificates of occupancy required. A certificate of occupancy shall be required for any work which is the subject of a building permit and for all structures, buildings, or portions thereof, which are converted from one use or occupancy classification or subclassification to another. Permission to use or occupy a building or structure, or portion thereof, for which a building permit was previously issued shall be granted only by issuance of a certificate of occupancy.

The Code Enforcement Officer shall issue a certificate of occupancy if the work which was the subject of the building permit was completed in accordance with all applicable provisions of the Uniform Code and Energy Code, the Zoning Code<sup>4</sup> and other general and local laws, ordinances, rules and regulations and, if applicable, the structure, building or portion thereof that was converted from one use or

- D. Temporary certificate. The Code Enforcement Officer shall be permitted to issue a temporary certificate allowing the temporary occupancy of a building or structure, or a portion thereof, prior to completion of the work which is the subject of a building permit. However, in no event shall the Code Enforcement Officer issue a temporary certificate unless the Code Enforcement Officer determines that the building or structure, or the portion thereof covered by the temporary certificate, may be occupied safely, that any fire- and smoke-detecting or fire protection equipment which has been installed is operational, and that all required means of egress from the building or structure have been provided. The Code Enforcement Officer may include in a temporary certificate such terms and conditions as he or she deems necessary or appropriate to ensure safety or to further the purposes and intent of the Uniform Code. A temporary certificate shall be effective for a period of time, not to exceed six months, which shall be determined by the Code Enforcement Officer and specified in the temporary certificate. During the specified period of effectiveness of the temporary certificate, the permit holder shall undertake to bring the building or structure into full compliance with all applicable provisions of the Uniform Code and the Energy Code.
- E. Revocation or suspension of certificates. If the Code Enforcement Officer determines that a certificate of occupancy or a temporary certificate was issued in error for any reason, including, but not limited to, because of incorrect, inaccurate or incomplete information, and if the

In any circumstance in which more than one activity listed in Subsection A of this section is to be conducted at a location, the Code Enforcement Officer may require a separate operating permit for each such activity, or the Code Enforcement Officer may, in his or her discretion, issue a single operating permit to apply to all such activities.
