

# Village of Barker

---

## **PUBLIC WORKS REPORT** February, 2017

Mark Remington, Superintendent  
Gene Cavanaugh  
Robert Verheyne

### **Streets**

- Plowed and salted streets, village hall, parking lot, East Ave. Extension to police building and the garage parking lot.
- Shoveled walkway and steps to Village Hall, Library and police building.
- Met with Solid Ground concrete and Hylkema concrete regarding the side walk on Pallister Ave.
- Picked up brush with tractor

### **Water**

- Met with realtor to check for back flow at 1876 Quaker Rd. No backflow installed.
- Received a phone call from the home owner at 8655 Woodward Ave. They were concerned about water in their basement. Checked the basement and water lines, which were fine. Noticed a large amount of ground water and sump pump was running a great deal. Homeowners replaced the sump pump.
- 1876 Quaker Rd.- Met with plumber who installed a backflow device. The meter needed to be hooked up. Installed a new water meter and also located the curb box, in case the water should need to be shut off.

### **Equipment**

- Washed trucks and tractors.

### **Parks**

- Emptied garbage can at Lake park on weekly basis.
- Opened up gat valve and picked up debris in skating rink.
- Started raking and picking up branches in Village park.
- Had Pete Berot Electrical to fix light posts in front of gazebo in Village park.

### **Other**

- Attended board meeting.
- Attended budget meeting
- Fixed down spouts on Village Hall
- Installed covers on air conditioner – Village Hall
- Went through paper work and organized desk at garage
- Made several phone calls to contractors for the following: Village hall parking lot, garage parking lot, chippers and section of sidewalk on Pallister Ave between Church St. and Coleman Rd. on the west side.
- Cleaned up north side of metal building.- Old wooden planters, railroad ties – planters, plastic pipes and cut down weeds.
- Went to Bobcat dealer in Lockport to view chippers.
